Theme:

This year's theme is retro-robots in honor of our 40th anniversary and who could resist a theme with robots in it? Dress retro or don your metallic threads and be a robot. Not to ignore our other featured band, we would love to see people dressed as their favorite spy. Boris? Natasha? Are you out there?

Band Info:

No security clearances are required to enjoy Seattle's **KGB**. With fiddle, mandolin, guitar and piano, KGB creates subversive music, lulling the unwary with traditional New England contra dance tunes, then jumping off into Balkan modalities, tango riffs and bluesy jigs. Claude slides from growling grooves to impossible high notes on the fiddle. Dave creates percussive energy and dazzling riffs on anything with strings. Julie explores the emotional range of the keyboard from majestic to down and dirty. Learn more at www.KGBmole.com

Giant Robot Dance brings together six talented young musicians from NY, Vermont and DC for a high-energy, alter-ego, super-psychedelic contra dance experience. Three sets of musical brothers — Andrew & Noah VanNorstrand, Andrew & Aaron Marcus, Michael & Alex Ferguson — for a wild night of blaring accordion, shredding electric guitar, bludgeoning drums and honking trombone solos, plus a sprinkling of very tasteful piano melodies and delicate violin accents. If you've ever longed to balance and swing with ELO, hey for four with Carlos Santana or petronella turn to the music of Queen, this may very well be as close as you'll ever get! Sound provided by **Jamie Platt** from DC.
